The VEIT Bangladesh office will have its operation from Banani, Dhaka with the sales and service engineers to support the sales and after sales support for the customers in Dhaka and Chittagong. The Veit Bangladesh office will serve as a Liaison office without disturbing their sales channel through the local agents and distributors. Mr Sri Ramaswamy, Regional Manager of Veit Group will be the country manager for Veit Bangladesh with the sales and support staff from Bangladesh. The VEIT Group is now looking at establishing its office and promoting more value added products to Bangladesh with the technical support from within as the skilled workers availability is becoming expensive and the attritions of the operators are adding to the agony of the manufacturers due to the presence of garment companies in clusters.

Also, as a token of appreciation for the VEIT Group's customers, it will extend promotional pricing all over Bangladesh for this month of October 2009.
