

# WINDING AND REWINDING DEVICE

## WR 16

Pressing for Excellence

The winding and rewinding device is the perfect addition to your VEIT laminating or fusing machine. A fully automatic process of unwinding individual rolls, then rewinding into a single roll after the laminating or fusing process.

Your benefits:

- ✓ Perimeter controlled technology for tension-free material handling and easy roll change
- ✓ Smooth and precise electrical motor control of all machine movements.
- ✓ The control panel provides easy operation of the process sequence and speed control
- ✓ Complete process of fusing / laminating / pre-shrinking

Rewind today ;-)
